From the Desk of Director...

As we know that education is to change the behavior of human beings. As a human being is a social animal. It is the education which transforms the animalish behavior of human being. The tool of education is very important for the society to grow the people into the civilized persons.

It is through education only that we can overcome the every difficulty of the life. Education is the fundamental right of the citizens. Now even the Govt. has also implemented the right to education (RTE) law through the constitutional amendment. Education is the torch by which you can enlighten your own path and facilitates the others also. Even after the best efforts of the

Indian Govt. & other state Govts, the education have not made inroads into the different areas of the country. Remote areas are still untouched in this fields. Some students are unable to get education due to the poor conditions of their families. Nowadays education has become costly also. Privatization of education is also in vogue these days. Due to it self financing institutions have cropped up at a fast speed.

To impart the traditional education is somewhat easy. But ours is the aim to provide Technological education to the students. So we have created the organization with a special aim to make the education of technology handy for the students.

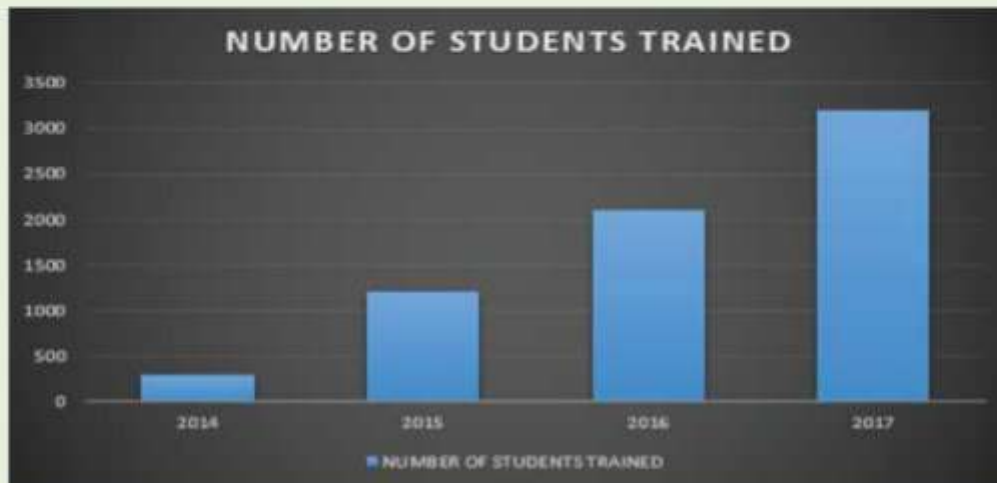

Skill Requirement

India's population as large as 1.2 billion and it is expanding at a fast rate and integrating rapidly into global economy. India is among the YOUNG countries in the world with the proportion of the work force in the age group of 15-59 years, increasing steadily. however, presently only 2% of the total workforce in India have undergone skills training. India has a great opportunity to meet the future demands of the world. India can become the worldwide sourcing hub for skilled workforce. The challenges for India get magnified, as it need to reach out to the million plus workforce ready population. While facing an ever increasing migration of labour from agriculture to manufacturing and services.

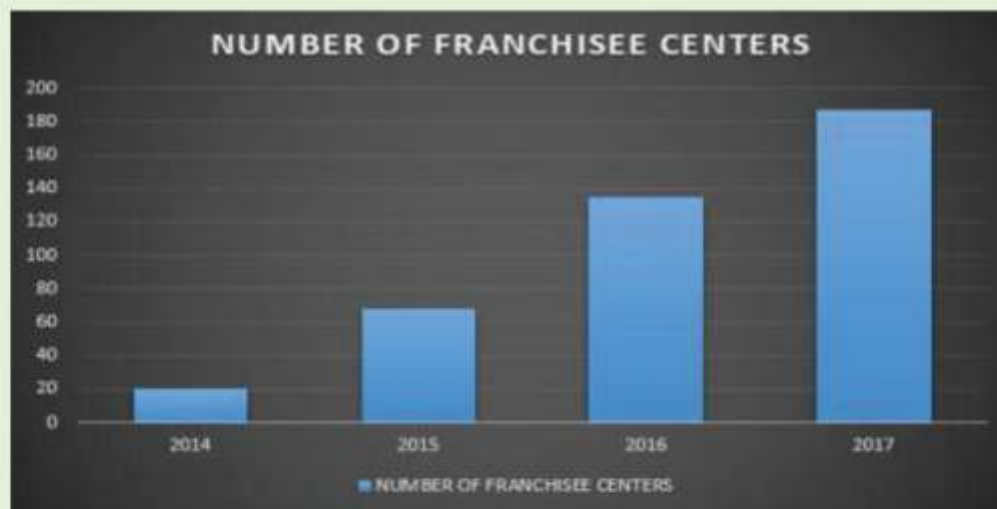

Our Growth

RP Shiksha Group of Education run by RPKVS Skill Development started in the year 2014 with 1 center.

Today we are a strong network of more than 150 centers. Our study centers are our biggest strength. In the year 2014 we taught about 300 students through our study center. The figure has now grown to more than 4000 students per year and it is still growing.

NUMBER OF STUDENTS TRAINED TILL 2017

NUMBER OF FRANCHISEE CENTERS TILL 2017

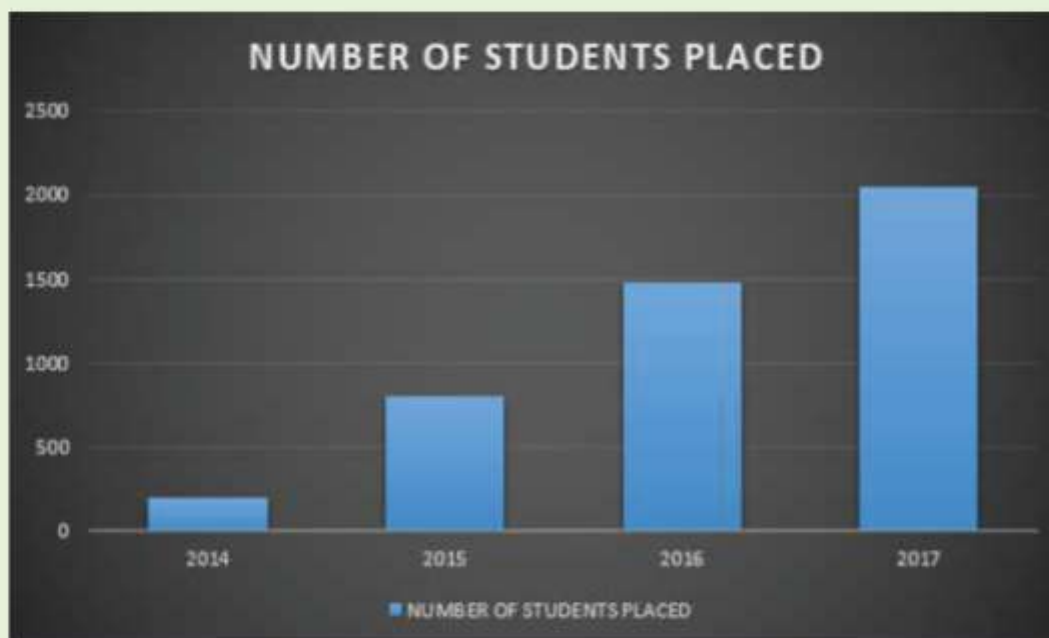

Career Guidance Camps

National Institute of Technology Skill Development organized various career counseling session every year. The main aim of career counseling session will provide counseling for various emerging career opportunities to students who want to get job. These counseling sessions will also provide an opportunity for the students to explore various new career options other than the prevailing career tracks.

Placement Assistance

Placement and Recruitment Cell

As the competition for employment is increasing every day & the job market is getting increasingly complex and challenging. Placement cell of an institution plays a vital role in providing the job opportunities as well as training students to present themselves in a better manner. The Objective of the Placement Cell is to look for 100% employment of all the students. To provide guidance to students in Career planning resume, preparation & interview skills, this will help students find employment suited to their abilities & skills.

NUMBER OF STUDENTS PLACED

Earlier Placements and Self Employments

Our students placed in various departments and industries and working on the prestigious posts like Data Entry Operator, Graphic Designer, Back Office Executive, Computer Trainer, Faculty. Some Students Placed In Govt. Jobs Like Patwari, LDC in Collatorate Etc. Some are successfully running their own Computer Education Centre, Graphics Studio, Printing Press.
